NEWS RELEASE

Stina Elects Not to Continue Option on Kodiak Property

The Company has elected to terminate the Kodiak Option Agreement with Ryanwood Exploration Inc., citing a lack of interest in investment in the Yukon at this time, coupled with some further challenges in the region and the current price of gold. Stina thanks Ryanwood for the opportunity to participate in the South Klondike Yukon gold exploration over the past few years.

In 2015, Stina plans to further refine the Bisoni McKay vanadium recovery process and initiate initial exploration on the KC Copper Property in British Columbia. The Company is currently undergoing internal corporate restructuring which will provide Stina better acquisition opportunities. Stina is currently examining these opportunities and intends to announce details in the near future.

Stina thanks its shareholders for their continued support in its quest to build further strength in the Company for the future.

The Company also announces that it has entered into stock option agreements granting the right and option to purchase 1,025,000 common shares of the Company at \$0.05 per common share exercisable in whole or in part on or before five years from January 9, 2015.
