NEWS RELEASE

Stina Resources Initiates Due Diligence with Zurich Gold Finance Corp. for Exploration License in Pakistan

Stina Resources Ltd., (“the Company” or “Stina”) is pleased to announce it has entered into negotiations with the **Zurich Gold Finance Corp.** (“Zurich Gold”) to acquire an indirect 90% interest in an exploration license (“the license”) for a property located in Balochistan Province of Pakistan (“the property”). The license is for the exploration of copper, gold, lead, zinc, silver, platinum group metals, molybdenum and associated metallic minerals in the district of Chagai, Balochistan.

The property for which the license is applicable lies to the north of the Sor Boroot Property and to the north-east of the Reko Diq Property, both located in the district of Chagai, Balochistan, Pakistan. The Reko Diq property is part of the Tethyan Magmatic Arc, extending through central and southeast Europe, containing a wealth of large copper-gold ore deposits of varying grades. The eastern and central sections of the belt are well recognized, hosting world class mineralization. The Tethyan Mineral Belt hosts major porphyry Cu related mineralization particularly at the Saindak mine 30 km west of the property under consideration. The project area is road accessible

Stina will conduct Due Diligence to determine the potential of the property, as well as confirm details of the exploration license.

Stina Resources looks forward to working with Zurich Gold in examining the license and property, and the possibility of formulating an agreement between the two parties.

R. Allan Doherty, P.Geo is the QP responsible for the review of this news release.

On Behalf of the Board of Directors,

James Corrigan
President
Stina Resources Ltd.
