EXPLORATION STARTS ON BLACKWATER PROPERTY

Stina Resources Limited (“the Company”) is pleased to announce that field crews are now being mobilized to the Bandit copper-silver-gold property located in the Blackwater area of central British Columbia.

On June 7, 2012, Stina announced it had entered into an option agreement with Copper Creek Gold Corp. to earn a 60% interest in the 8,732 hectare property. As per the option agreement, Stina will be funding the exploration program at Bandit. Stina must spend \$100,000 on exploration this season, and an additional \$1.9M over a four year period, as well as issue 400,000 common shares to Copper Creek over a three year period.

In 2011, Copper Creek established a 2 km x 5 km copper-silver-gold MMI anomaly on the Bandit property, and field crews will now be conducting a program of infill MMI sampling in preparation for a 2,000-metre, 20-hole percussion drill program planned for August, 2012. Copper Creek will be operator of the project for this exploration season.

The Bandit Property

The Bandit Property is located in the Blackwater Gold District of Central British Columbia, approximately 137 km southwest of the city of Prince George, and more specifically in the Nechako Plateau. The Bandit also lies south of the Kinross Knewstubb Property, and directly west of New Gold Corp.’s Blackwater Gold Project, which currently hosts a gold resource of 5.5 million oz. indicated and 2.3 million oz. inferred (refer to New Gold Inc. March 7, 2012 news release). The property is comprised of the Smokey, the Bandit and the Burt claims.

The Company encourages investors and shareholders to view a video and powerpoint on the Bandit by visiting the property page on the Company’s website at www.stinaresources.com/blackwater.html
