**STINA ACQUIRES OPTION TO EARN 100% OF KC COPPER PROPERTY NEAR STEWART AND TERRACE, BC**

Stina Resources Limited (“the Company”) announces it has entered into an option agreement with Kevin Cohen (“Cohen”) to earn a 100% interest in the KC Property, located in the Kitimat-Stikine District of Central British Columbia, approximately 60 km southeast of the city of Stewart, BC and 100 km north of Terrace, BC. The 405 hectare property has had prior trenching and sampling work in the early 1990s.

The Option Agreement is subject to the approval of the TSX Venture Exchange.

Pursuant to the option agreement, the Company must issue a total of 400,000 common shares and \$5,000 to Cohen as follows

Issue and deliver to Cohen

- a. 200,000 common shares of the Company, and a \$5,000 cash payment within five days after the approval date of the Option Agreement by the TSX Venture Exchange;
- b. 200,000 common shares of the Company on or before the first anniversary of TSX Venture Exchange approval;

The KC Property

The 405 hectare KC Property is located in the Stewart District of Central British Columbia, approximately 30 km southeast of the city of Stewart, and just to the east of the Portland Canal, an area noted for historical copper exploration, including the Castle Resources Granduc Mine. Additionally, the Avanti Mining, Kitsault Molybdenum mine lies to the west. The KC property has easy access, with previous trenching and copper soil sampling conducted in the mid 1980s by Ron Crimeni. Stina intends to conduct an initial magnetic/spectrometer radiometric survey over of the property this summer, followed by soil sampling and trenching to identify and reaffirm copper anomalies.

Stina is currently engaged in the exploration of mineral resource properties, including its Kodiak gold property in the Yukon, as well as its Bisoni McKay vanadium property in Nevada and will release further news regarding 2014 plans for these projects in the near future.
