## **NEWS RELEASE**

### **Stina Plans No Stock Roll Back in Foreseeable Future**

**Stina Resources Ltd.** (“the Company” or “Stina”) announces that it intends to protect the capital structure of the Company, and has no intention of initiating a share roll back for the foreseeable future despite recent TSX Venture Exchange rule adjustments. If a roll back were to be considered, the Company would entertain shareholder feedback prior to such a course. The Company recognizes that protecting share value is of utmost importance during this challenging period, and intends to move forward in the development of its properties, as well as seeking new opportunities to benefit shareholders. The Company has also initiated financing discussions for working capital and exploration.

In a recent interview with Eric Sprott of Sprott Securities, he revealed a bullish outlook for gold, and gold juniors over the coming year. He expects significant appreciation to gold prices, as well as the value of junior resource exploration companies. The board of directors of Stina share in this enthusiastic outlook and understand the responsibility of maintaining sensible share structure so that when positive market conditions return to the junior resource sector, Stina shareholders have a strong opportunity for success.

Stina welcomes shareholder and investment feedback at 1-800-545-9940.

On Behalf of the Board of Directors,

James Corrigan  
President  
Stina Resources Ltd.
